

ROBE ESPRITE™

An innovative, compact LED fixture, Robe Esprite LEDs offers high output lighting possibilities. Powered by a WTE™ 650W White LED Transferrable Engine, Esprite provides performance longevity. Precision optics generate crystal clear white light with the 27,000 lm fixture output producing a piercing 85,000 lux at 5m. The two fast color wheels are complete with one rotatable and indexable gobo wheel, an animation wheel and impressive multi-color effects, a fixed gobo wheel CTO filters, 6-facet rotating prism, and a 1° soft edge and 5° wash type frosts.

FEATURES | SPECIFICATIONS | BENEFITS

- Light Source - WTE™ 650W White LED Transferable Engine
- Pan movement - 540°
- Light Output - up to 27.000 lm, 85.000 lx @5m, Cpulse™ special flicker free management for HD and UHD cameras, ready for 8K and 16K
- Tilt movement - 265°
- Zoom Range - 5.5° - 50°
- Effects - Static and rotating gobo wheel, Animation wheel, Framing shutters, Prism
- Cyan: 0 - 100%
- Magenta: 0 - 100%
- Yellow: 0 - 100%
- Variable CTO: 3.000K - 6.700K
- Colour Wheel 1: 5 fixed dichroic colours + white
- Colour Wheel 2: 5 fixed dichroic colours + white
- Framing shutters : Patented framing shutters module with 4 individually positionable blades plus rotation of the complete frame system +-60°
