

# ROBE LEDBEAM 150™

The super compact LEDBeam 150 packs a punch with fast sweeping beams, a wide far-reaching quality wash and now—zoom. The unique LEDBeam 150 FW offers Fresnel-Wash type of light output for smooth edges and enhanced color blending. A cluster of high power multichip 40W RGBW LEDs power the colorful chases and smooth transitions. A highly optimized motorised control produces speedy pan and tilt movement. LEDBeam 150 and LEDBeam 150 FW offer intense strobing capabilities along with gentle 18-bit dimming, including Tungsten lamp effects. An eminent custom-designed optical system produces a spectacular zoom range of 3.8° to 60°. Now equipped with Robe's innovative lens coating technology, bringing benefits such as bright and clear lenses, scratch resistance, higher light output and longer intervals between cleaning.

## FEATURES | SPECIFICATIONS | BENEFITS

- Light Source - 7x 40W RGBW multichips
- Light Output - 12.200 lx @ 5 m
- Fixture total lumen output: 2.842 lm
- Pan movement - 450°
- Tilt movement - 228°
- Zoom Range - 3.8° - 60°
- Effects - Colour mixing mode RGBW or CMY
- Pre-programmed random strobe & pulse effects
- Dimensions: 9.6 x 13.3 x 5.9in (224 x 337 x 149mm)
- Weight: 12.6lbs (5.7kg)
