

18.75 MM HYBRID

The ROE Visual Hybrid combines an 18.75MM LED display with LED spotlights integrated into each tile. This function enables the product to be used in a variety of ways for both video and lighting. Mounted to the tile, the lightweight Touring Frame greatly improves the installation and use of the Hybrid. By using magnets, assembly has never been so easy and can be handled by a single person. With an 18MM pitch for the display pixels and 150MM for larger spotlights, this innovative product can be used for all types of events.
