

2MM X SERIES INFILED

The 2MM X Series INfiled is an ultra-thin, curved LED Panel capable of bending into angles of up to 20°. It has a max flown height of sixteen tiles and a max ground supported height of nine tiles. Concave and convex bending capabilities make events feel more personal and interactive, giving the illusion of an immersive 3-D effect. In addition, graphics will be displayed beautifully and vividly with a 2MM pixel pitch. The tile includes magnetic connections with One-Action locking pins, and position pin alignment, which allow for quick and easy set-ups and takedowns.

FEATURES | SPECIFICATIONS | BENEFITS

- **Pixel Pitch:** 2.9MM
- **Weather:** Indoor
- **Frame Size:** 19.69" X 19.69" X 3.31"
- **Transparency:** 0%
- **Brightness Level:** 1000 - 1200 NITS
- **Pixels Per Tile:** 168 x 168
- **Weight:** 19.62 LBS
- **Viewing Angle:** 110° Horizontal / Vertical
- **Average Power Consumption:** 240W, 720W Max
- **Misc:** Bendable up to 20°
