

BARCO EC-200

LARGE EVENT CONTROLLER

The EC-200 leverages the ease of use of its smaller brother, the EC-50 event controller, while adding a syntax-based programming methodology that accelerates programming, offers immediate access to system resources, and streamlines show programming in a way that's unique to the Event Master system. Redefining the way screen management is handled for large events, this syntax-style programming greatly simplifies and speeds up your job. The EC-200 is the perfect tool for a wide range of shows – from a tradeshow booth, to a large corporate event, even for the largest music tours.

FEATURES | SPECIFICATIONS | BENEFITS

- Dimensions: 244.34 x 901.19 x 575.36 mm / 9.62 x 35.49 x 22.65 inches
