

ROBE BMFL WASHBEAM

The BMFL WashBeam will enhance any show with its large beam produced through wide 180 mm front lens. With custom light source designed for Robe it produces an astounding 300.000 lux at 5 metres! Rotating gobo wheel with carefully selected gobos ensure many combinations of in air animations, but can also produce nice spot-like projections on surfaces.

Four fast shutter blades with smooth and precise movement offer individually angled positions within a frame - which itself can rotate through 90 degrees, providing a sharp or soft, precisely repeatable frame for the projected image.

Fast movement of the framing system also allows unique in air beam effects. Adding frost filters can enhance the projection by adding smooth touches to the beam's edge.

FEATURES | SPECIFICATIONS | BENEFITS

- 38.000 lm, 300.000 lx @ 5 m, 3.000 lx @ 50 m
- Light Source: 1700 W OSRAM Lok-it! HTI 1700/PS
- Zoom Range: 4.5°- 55°
- Effects: Internal barndoors, rotating gobo wheel, interchangeable frost
- 38.4 kg (84.7 lbs)
