

ROBE ROBOSPOT™

The revolutionary RoboSpot follow spot system allows follow spot operators to remotely control and perfectly synchronize up to 12 fixtures simultaneously. Operators can now safely control multiple fixtures such as the BMFL range of products (exc. BMFL Wash), T1 Profile, T1 Profile FS, DL7S, DL4S, MegaPointe and Pointe from any location within the venue, reducing set-up times and operating costs. This system removes the safety concerns and impracticality of placing personnel at the top venues to operate traditional follow spot fixtures.

FEATURES | SPECIFICATIONS | BENEFITS

- BaseStation features a 15.6" HD touch screen
- Full range of hand controls (pan, tilt, intensity, focus, faders, and many more)
- Commands are instantly transferred to the luminaires via DMX control
- Touch Screen also contains extra controls, 4 programmable jog wheels, and 10 fully configurable buttons
