

# SB18M

Trusted for its impact, sensitivity, low thermal compression and ability to reduce distortion, the SB18M sub-woofer is the perfect complement for the L-ACOUSTICS mobile systems. Extending operating frequency range down to 32hz, the SB18M vents feature progressive profiles allowing for laminar airflow, and reduced turbulence noise even at its highest operating levels. Made from first grade Baltic birch plywood, the SB18M delivers maximum acoustical and mechanical integrity. SB18M has integrated rigging for attaching ARCS WIDE.

## FEATURES | SPECIFICATIONS | BENEFITS

- **Maximum SPL:** 136 dB
- **Low Frequency Limit:** 32 Hz
- **Size:** 29.5" x 21.3" x 27.8"
