

SHURE MXCW WIRELESS MICS

The MicroFlex Complete Wireless Digital Conference Microphones have a flexible section at the bottom and a straight section at the top to provide easy adjustment while maintaining a streamlined appearance in meetings and conferences. Industry-standard MX-series microphone cartridges deliver accurate voice capture, and CommShield® Technology rejects RF noise. An integrated bi-color LED indicates microphone status.

FEATURES | SPECIFICATIONS | BENEFITS

- Frequency response: 50 to 17000 Hz
- Polar pattern: Cardioid
- Maximum SPL: 121 dB
(1 kHz at 1% THD, 1 kΩ load)
- Signal-To-Noise Ratio Ref.: 66 dB
(94 dB SPL at 1 kHz)
- Conference unit connection: 10-pin modular plug
- Temperature range: 5° to 40° C
