

Robe iFORTE

OVERVIEW

The Robe iFORTE® is a high-output, IP65-rated LED moving light designed for both outdoor and indoor applications.

It features Robe's TRANSFERABLE ENGINE technology with two LED engine options: High Performance (HP) for maximum output and High Colour Fidelity (HCF) for superior color rendering. The fixture features an 11:1 zoom optical system with a range from 5.5° to 55°, providing flexibility for various applications. The iFORTE® maintains a lightweight design, only 1.5 kg heavier than its indoor counterpart, facilitating seamless integration in mixed setups.

FEATURES & DIMENSIONS

- LED Source iSE-TE™ 1,000W White LED (HP or HCF options)
- Output Up to 50,000 lumens
- Zoom Range 5.5° – 55°
- IP Rating IP65 for outdoor use
- Color Mixing CMY with variable CTO (3,000–6,700 K)
- Framing Shutters Plano4™ system with ±60° rotation
- Prisms Dual 6-facet prisms
- Frosts MagFrost™ 1° and 5°
- Effect Two rotating gobo wheels, animation wheel
- Control DMX, RDM, ArtNet, sACN, CRMX Wireless
- Weight ~39.8 kg (87.7 lbs)
- Engine Life 50,000 hours
